
Lianbo Zhang

~20 years versatile software development and management experience in both US and China. Exposure to sales, business development and entrepreneurship. Currently focus on application for big data/AI research and development in medical and health, and financial industries.

EXPERIENCE

Since 2012 Mr. Zhang has been working as senior architect consultant at Hubblewave, and currently partnering with Xi'an BoRui Hospital, where he is charged with projects: Hospital management information system; map-navigation based doctor-patient platform; AI-powered chatbot assistant for hospital navigation and customer service; planning and design of internet hospital.

He was selected by the 8th national ChunHun Cup Entrepreneurship Program in 2013. He also partnered with EU-based Logical Objects as its business development and sales consultant, responsible for leads development in greater China region including Hong Kong, Macau and Taiwan for its enterprise ECM product.

During 2007-2011, he worked as a technical consultant, solution architect and product evangelist for mobile application startups such as iSpot and Life360. He worked as a software project manager at HuaTek during 2005-2006 managing a team of 10 members where he participated in development of management information system for Merck Pharmaceutical; and senior software developer at SiliconMetrics(Magma), Austin, Texas during 1999-2003.

He had also worked as a system administrator/software engineer in Tsinghua Institute of Microelectronics for 5 years before he went to US pursuing his graduate study in 1996.
